<Message>:

Steve, I loved taking the opportunity to planting the "seed" with her aide that people were talking about her actions !!!! I told him it would be hard for property rights people, and CPR members to support her in the future." As you can see from the email I sent you, I have started the "process" of informing people that have in the past supported her, about her actions. Being less confrontational is a good idea. Later when the opportunity presents itself, go for the jugular. Unfortunately, it doesn't appear the Mick, Jim and Bruce are on board for this. But, the time will come and she has to be exposed for what she is, if in fact, she is a "dangerous liberal in conservative skin". Dale Myers will get her..... I am recuperating from Bronchitis.... second go around with a different antibiotic.... losing my voice I hope is over !! I did get my "shot at Burton" in though in my speech.... did you like the "leave the Dulles area to the Dulles Supervisor" lol I have had some people write to tell me they liked the idea that I took him to task for not keeping his own district up to snuff and for him to keep his nose out of your district..... :))
bye bye
