# **Jerry Kilgore Must SPELL OUT HIS TRUE POSITION on Taxes.**

This mailing was authorized and paid for by Kaine for Governor.

**The Virginia Club for Growth calls on Jerry Kilgore to inform the voters where he really stands on the issues of taxes and state spending.**

“For months now, Jerry Kilgore has tried to have his cake and eat it too” said Phil Rodokanakis, the President of the Virginia Club for Growth. “By trying to play both sides of the issue, Kilgore has been telling fiscal conservatives that he’s against taxes, while winking at the tax-and-spend interests in our Commonwealth, implying that he’s also on their side.”

Kilgore has refused to sign a taxpayer protection pledge and will not comment on whether he will support or oppose the Taxpayer Bill of Rights (TABOR) legislation as proposed by the VA Club for Growth and a number of other organizations promoting the Freedom and Prosperity Agenda (<http://www.tertiumquids.org/agenda.html>) – which has already garnered the support of about 25% of the General Assembly.

“The recent revelation by the Washington Post that Kilgore bowed to pressure from the Fairfax Chamber of Commerce and in order to gain their endorsement promised not to oppose efforts to raise regional taxes, is the last straw that broke the camel’s back” said Rodokanakis. “Given the State’s \$2 billion dollar budget surplus and the fact that all residents are paying unprecedented prices at the gas pumps, Jerry Kilgore needs to assure the voters that he will not raise taxes and that he will rebate part of the budget surplus back to the taxpayers – anything less at this time, is simply unacceptable!”

The Virginia Club for Growth called on its members and all concerned voters to contact the Kilgore campaign and demand that the candidate speak out unequivocally against new taxes. The campaign can be contacted at (804) 421-9966 or by email at [Info@JerryKilgore.com](mailto:Info@JerryKilgore.com).

The Virginia Club for Growth and the Virginia Club for Growth PAC are comprised of Virginia citizens and taxpayers dedicated to fighting for lower taxes, reduced regulatory burdens, controlled government spending, and other policies that will expand overall economic growth and prosperity for the working people of Virginia.
