Derek,

Sorry. Although I was able to highlight all of the messages as you suggested, I couldn't figure out how to forward them en masse.

Rick

Hi Rick, This exhibit has been in development for 2 years. NOAA, NASA and NSF are the principal funders and John Calder and I have been the main reviewers during the last three editions of the text. The following individuals were part of the Review team:

Richard Alley, Univ. of Penn.
Waleed Abdalati, NASA
Elizabeth Cassano, CIRES
Lou Codispote, Univ. of Maryland
Joan Eamer, UNEP, Norway
Brad Griffith, Univ. of Alaska
Brendan Kelly Univ. of Alaska
David Klein, Univ. of Alaska
Gary Kofinas, Univ. of Alaska
Stephen Loring, Arctic Studies Center, NMNH

Robert Sullivan from the Smithsonian wants to make sure that the Agencies who have funded the exhibit are content with the material, and he has specifically asked that both you and Richard Spinrad look at the text.

John and I are going through this third edition as well. I am not aware of any glaring errors, but your eyes may find something that should be altered.

Thanks much Rick.

The package is on the way.

best wishes

Kathy
