Subject: Re: Language on Solvent Wipes

Thanks. I will respond this week with some suggested clarifications.

Subject: Language on

Bill,

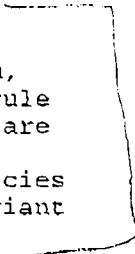

Bob asked me to forward to you the language we have put together to address the laundries' concerns about whether the proposal itself will affect implementation of RCRA. We intend that the language below will appear at least twice in the preamble if not three times. Let us know what you think and if you have any suggestions.

Thanks,

Kathy

"Because this action is a proposed rulemaking, provisions of the proposal, as well as EPA's assumptions and rationale leading to them, are subject to public notice and comment. Therefore, until a final rule governing these materials is issued, they remain regulated, as they are currently, by the State or EPA Region implementing the RCRA program. This proposed rule is not intended to affect individual states' policies and regulations on management of industrial wipes until it, or a variant of it, is finalized. "
