President’s Report  
(Dr. Quentin L. Van Meter)

Everything on behalf of the college has been focused on the transgender issue:

➢ Radio interview concerning the challenges of female athletes having to compete with biologic males.

➢ Publication of my article on transgender treatment options in *Issues in Law and Medicine*.

➢ Preparation of affidavit for the Younger case in Texas. Working with Georgia state legislators on a bill to ban medical and surgical treatment of transgender minors.

➢ Testimony to Alabama House and Senate committees about the harms of social, medical and surgical affirmation of transgender children under the age of consent.

➢ Radio interview with Tony Perkins about the Alabama legislative efforts.

➢ Testimony to Pennsylvania House health committee on harms of puberty blockers and cross-sex hormones in transgender patients.
