

## Our Supporters

The Center for American Progress Action Fund's work is supported by generous donors and partners—including individuals, foundations, corporations, and other organizations. We are proud to recognize the following supporters that have given \$5,000 or more to further the Center for American Progress Action Fund's work during 2014.

Our work is independent and driven by solutions that we believe will create a more equitable and just country.

Corporate funding comprises less than 3 percent of the Center for American Progress Action Fund's budget. Corporate donors are not permitted to remain anonymous and corporate donations do not fund specific directed research.
